All batteries with external display, discharge protection and 1 year Telematics subscription

Carefully check the needed weight according to the truck type plate. For heavy batteries check local purchase of tray

Item type:

- A: Standard and certified core batteries
- B: Standard and certified core battery + additional bigger battery box + additional weight
- C: Special projects, with standard certified modules and components, new size of box. Need approval
- D: Special projects with no standard components. Needs approval
